

William Heintschel

Houston, TX | wdheintschel@gmail.com | github.com/will-heintschel

SUMMARY

Recent Cybersecurity graduate (B.S., Purdue University Global) with hands-on experience securing and monitoring multi-service Linux infrastructure, firewall configuration, VPN deployment, DNS filtering, log analysis, and uptime/alerting. Seeking an entry-level Security Operations, GRC, or Compliance Analyst role. Background in structured training delivery and high-volume operational environments, with strong documentation and process-follow-through habits.

TECHNICAL SKILLS

Security & Networking: Firewall Hardening (UFW), VPN (Tailscale), DNS Filtering & Ad Blocking (Pi-hole, DNS-over-HTTPS), Network Segmentation, Static IP/DHCP Configuration, SSH Hardening

Systems Administration: Ubuntu Server, Linux Administration, Docker & Docker Compose, Log Analysis, Service Troubleshooting

Monitoring & Incident Response: Uptime Kuma, Glances, Real-Time Alerting (Telegram Bot API), Service Health Monitoring, Automated Patching (Watchtower)

Programming & Scripting: Python, C# (Unity), JavaScript, HTML, CSS

Tools & Platforms: Git, GitHub, VS Code, Portainer, SSH, SCP

TECHNICAL PROJECTS

Personal Homelab & Self-Hosted Infrastructure | Security-Focused Build

Ongoing Personal Project

- Hardened a production-grade Ubuntu Server environment (12+ containerized services) with UFW firewall rules restricting SSH and sensitive ports to local network and VPN ranges only, reducing exposed attack surface.
- Deployed Tailscale VPN for encrypted remote access across all devices without exposing ports to the public internet, applying zero-trust-style access principles.
- Implemented Pi-hole for network-wide DNS filtering and DNS-over-HTTPS, blocking malicious/ad domains and reducing endpoint exposure across the network.
- Built continuous monitoring and alerting with Uptime Kuma and Glances, configuring real-time Telegram notifications for service outages and resource/temperature thresholds, mirroring SOC-style alert triage.
- Performed ongoing log analysis and service troubleshooting across a multi-container Docker stack, and documented the full network/service architecture for repeatable deployment and change tracking.

PROFESSIONAL EXPERIENCE

Academy Trainer

Dec 2024 – May 2025

Walmart Neighborhood Market | Atascocita, TX

- Selected to onboard, coach, and develop new associates, delivering structured training programs and ongoing performance support in a high-volume environment.

Overnight Stocker

Mar 2023 – Dec 2024

Walmart | Baytown, TX → Atascocita, TX

- Maintained inventory accuracy, merchandise organization, and stockroom efficiency during overnight shifts; transferred locations and retained role prior to promotion to Academy Trainer.

Fulfillment Associate

Nov 2021 – Mar 2023

Michaels | Baytown, TX

- Processed online orders with a focus on accuracy and efficiency; maintained organized inventory and stockroom operations.

Concession Attendant

May 2019 – May 2021

Showbiz Cinemas | Baytown, TX

- Delivered high-volume customer service, handled cash transactions, and upheld food safety standards.

Independent Contractor

2019 – Present

DoorDash & Amazon Flex | Various Locations

- Managed independent delivery logistics, route planning, and time-sensitive scheduling.

EDUCATION

Bachelor of Science in Cybersecurity

Oct 2025 – Aug 2026

Purdue University Global | Online

Associate of Science in Computer Science

Aug 2021 – Dec 2023

San Jacinto Community College | Pasadena, TX
